RE: CRAIG ANDERSON

I have known Craig Anderson for six years and he has been involved for many years in the extensive coaching programme for juniors and adults at my tennis complex. Craig is well presented, neatly attired, and the high level of competition he has reached, coupled with his playing experience has provided an excellent foundation for a teaching career.

Craig has a pleasant nature and easygoing personality and is honest and patient, handling responsibility well and is able to convey his understanding of the intricacies of the game in an interesting and enlightening fashion.

He has a wide knowledge and experience of running a Pro shop, stringing rackets, replacing grips, plus general repairs.

I thoroughly recommend Craig both as a teacher and as a person and wish him success.
